Milestone
2009

the year of the red dogs

Recognized. Established.

These are the words that have been the face of the Academy for more than two centuries. With tradition, we can say "we are the oldest boarding school in America". With tradition, we can claim that we have 245 years of excellence under our belt. With tradition, we are well known, prestigious and durable. If tradition has been the wind that has blown our sails, why change?

To delve into this question, it is crucial to look back at the customs we have proudly practiced in the past.

What does the Milestone really mean? Just a big ole' rock with scratchings on it telling us how far it is to Boston? Or does it serve as a symbol to tell us how far we have come in four years?

What does "having school spirit" mean? Does it only mean that we dress in crimson with a big G for Governors? Or does it reveal some special element in our character that states, "Thats why I am a Gov."

Why are we calling ourselves the Red Dogs? Is it because the bookstore's best selling sweater is one that has a picture of a red puppy? Or is it because we have finally figured out our own way to make an impact?

Lasting.

To change is not to tear down tradition,
but rather to test and renovate it.

And for this year, a change has occurred, a new
era has arrived.

An era that, while respecting the traditions of the
past, breaks from tradition.

This year, it is the era of the

Mike Moonves

The walking Rolodex, a colleague recently called him. He is renowned for knowing the name of every alumnus he sees, the names of their spouses and children, the year of their graduation, their college alma mater, and current city of residence. No one would be surprised to hear him rattle off a favorite color or dessert or even a phone number. His memory may be outstanding but it is fueled by a genuine love of people and a gentleman's commitment to etiquette.

His good sense of humor has reached into every corner of the Academy, ranging from the "Moon dance", a special dance routine he performed annually in front of the faculty and students back in the day to help ensure that it wouldn't rain on graduation day, to his riddles and phantom facts such as "What do George Bush, Franklin D. Roosevelt, Steve Bucknall ['85] and I have in common? We all went to boarding school." His rare combination of humility, humor, and an awareness and appreciation of the feelings of others has enabled him to be one of the finest ambassadors for the academy. He also has a reputation as the quintessential man of manners. Hats off, napkins in laps, doors held. The genuine smile and firm handshake he greets everyone with has become one of the signature gestures people have come to know him by.

On the golf course, the golf team looks up at him to be more than just a high school coach but a mentor who sparks wisdom with his wry sense of humor during each afternoon practice. His dedication to the Academy is evident, as he has served relentlessly over the past years as the head of Admissions, History teacher, dorm parent, golf coach and a big part of the Development office. Now Moon, as he is affectionately known, is graduating from the Academy after 40 school years. And as someone who has always remembered our names, we will certainly never forget his. And as he has so passionately performed the "moon dance" for past graduates, as a gesture of good luck and God speed, we, the class of 2009, shall send him off with our own celebratory salute. And as he has so often extended a handshake to greet us each morning, we now present him with our most grateful gesture in return – we dedicate this year's Milestone to Mr. Mike "Moon" Moonves.

"Life isn't about keeping score. It's not about how many people call you and it's not about who you've dated, dating, or haven't dated at all. It isn't about who you've kissed, or what sport you play, or which guy or girl likes you. It's not about your shoes or your hair or the color of your skin or where you live or go to school. In fact, it's not about grades, money, clothing, or colleges that accept you or not. Life isn't about if you have lots of friends, or if you are alone, and it's not about how accepted or unaccepted you are. Life isn't about that. But life is about who you love and who you hurt. It's about how you feel about yourself. It's about trust, happiness, and compassion. Life is about avoiding jealousy, overcoming ignorance, and building confidence. It's about what you say and what you mean. It's about seeing people for who they are and not what they have. Most of all, it's about choosing to use our life to touch someone else's in a way that could never have been achieved otherwise. These choices are what life's about". -Nike Ad

Words Of Wisdom:

A Sampling of a Chapel Speech by Lisa Hoopes

My stomach was growling as I sat next to Scott and Casey in our "Evening Circle" as we waited for Lexi to tell us we could eat dinner. I was so excited for dinner because it was mac and cheese, and this was probably the best meal we had so far on the trip. Lexi came walking back from her tent carrying her hat upside down, and as she came closer I noticed there were pieces of paper inside it. She stood just outside the circle and with a grave look on her face announced that we would be doing an activity tonight to go along with dinner. Well, we had done a lot of different activities so far on this trip, and most of them were all pretty fun. Usually they involved some sort of group problem solving, or involved a creative and fun way to pass the time while we completed the necessary tasks around camp. In any rate, I really wasn't too concerned about the activity we were about to do because I was so anxious to eat this delicious mac and cheese that I had just cooked. Lexi said that it would be a couple more minutes until we could eat dinner, and as she began to pass her hat around the circle I suppressed my hunger and told myself to suck it up for just a few more minutes. The hat was passed around and each of us chose a piece of paper, each with the number 1, 2, or 3 written on it. I put my hand into the hat with a sense of assurance that I would come out with the number that held the best prize, or would put me in the best position. I unfolded mine to see that the number I had chosen was a 3. Maybe we were working backwards tonight, and the people with three's got to get dinner first. Or maybe, even better, I would get three servings of mac and cheese. I only came up with beneficial outcomes that could possibly go along with the number I chose as I waited for everyone else to pick their numbers and for Lexi to finally tell us we could eat. After everyone had their numbers, Lexi explained the activity we were about to do as "3rd World Dinner" and said they do it on every Outward Bound course. She told us that whoever had the number 1 would be able to eat as much food as they wanted, and could use utensils. The people who were 2's could eat one helping of dinner, all out of the same bowl, with no utensils. And then she got to the three's. "The three's," she said as she looked down at the ground, "will be having nothing to eat tonight, and must sit and watch until everyone else is done."

I looked around at the rest of my group. Was this a sick joke? Was she honestly telling me that I was not going to eat the mac and cheese I had just cooked for the last hour? I was not going to be eating anything until breakfast tomorrow? I honestly thought she was kidding. As I sat there with Scott, Katie, and Jack – the three other people who had picked 3's, I felt my face get hot. I watched two of my friends and two counselors devour the food that I had just prepared, and with each bite I became angrier. As they sat there eating the delicious hot, cheesy, mac and cheese, the rest of us watched in silence. When they finally finished, after three or so helpings each, Lexi gave the rest of the mac and cheese in a big bowl to the 2's. The six of them ate with their hands out of the same bowl, but they didn't mind. I watched them, furious, and completely envious. I could tell that Jack, Katie, and Scott were just as livid as I was for none of us talked or looked at each other as we sat staring at the sand below us in anger, hoping that maybe there was still a chance we would get something to eat.

After what seemed like five hours of sitting and watching my friends eat the dinner I had just cooked, Lexi told us to go off by ourselves for a little and write in our journals about dinner. I didn't even look at her as I got up, for I was so furious that she would make us do something like this, especially on a day like today. I walked to the tent to get my journal, almost on the verge of tears because of how completely unfair this was, and because I was unbelievably hungry. That night, the twelve of us were completely separated from our four counselors for the first time on the trip. We sat on the other side of camp, yelling and complaining for the remainder of the night. My two friends who had picked the number one felt terrible that they had been able to eat so much, and my friends who had picked the number two felt awful as well. I wasn't mad at them, I would have eaten too if I had the choice, but that choice had been taken away from me... a concept that I was completely unaware of until that night. That night I went to bed furious, homesick, and really freaking hungry. Outward Bound was an amazing experience, and one that has truly changed the way I view things on a day to day basis. Not only was it one of the most challenging experiences I have ever had to overcome, but it was also one of the best times I've ever had. Those 15 days spent on the Green River in Colorado and Utah were filled with laughs, and I met some of the coolest and nicest people I have ever known. I did things I never thought I'd be able to do, or would have ever had the chance to do, and you will be happy to know that we were fed three meals a day with the exception of that ... "memorable" dinner experience. That night, the twelve of us were completely separated from our four counselors for the first time on the trip. Life isn't fair. That is one thing I've learned these past four years. There may be times where you're studying for a precalc test that involves graphing sine and cosine and you're going to wonder how will this ever relate to anything. Or times when you're sitting on the bench during a game when you should be out on the field. Or times when you don't get invited to that party or sleepover all you're friends have been talking about for the past couple days. Or the time the morning after prom when the electricity in your house doesn't work and you NEED to wash the 3 pounds of hairspray out of your hair before making a public appearance. There may be a time, or more than one time in my case, where you receive a D on that physics test you studied for all day Sunday. Or a time when you have to tell your friend you can't make it to the Red Sox Yankee's game, because you'll be too busy watching it at home on the couch since your grounded. There may be times when your house doesn't feel like a home, and you think everyone has it better than you. Or there is always the time when you don't get to eat mac and cheese after paddling 26 miles down a river. None of this is fair, but that's just kind of how life works. More importantly, what I've learned these past four years on top of this is to take advantage of the times when everything actually falls into place. The times when life is fair. Because it will be during these unique points in your life that you'll laugh about the time you cried over mac and cheese, and you'll realize that all those unfair moments seem pretty insignificant compared to right now. When I graduate from this school, I have no idea where life will take me other than my next destination in Waterville Maine. What I do know is that it is important to recognize the times in life when everything is just right, and not to focus on the times when things are all wrong. So, maybe later today when your standing in line at lunch and you see that nothing appeals to and you think it's unfair that there is nothing you want to eat, you'll remember to look at the beginning of the buffet. When you do this, you'll see that in the same spot at the beginning of the line, there is always pasta and cheese. And maybe you'll remind yourself that every day, unlike many other people in this world, you always have the option to make some mac and cheese for lunch or dinner, and to me, this seems more than fair.

SENIORITIS

Warning! Senioritis rapidly spreads throughout the senior class during the Spring. A silent but ever so popular epidemic. Side effects include: being late to class, excessive lingering in hallways and missing morning meetings and chapel. Class time is often confused for nap-time. Many seniors fall victim to the infamous senioritis beginning with early acceptances to college.

Phillips 05-06 Crew We'll always have those late night runs into the dining hall, HALO in the Common Room, Hoon's "don't poop" policy, etc. **The "Original" ECF Inmates** Good times, guys. CoD3 in Ward and Morgan's room, NHL in Web's room, Yoffe's pool, a bunch of water fights, "DOS TRES!" It's been a blast for the past three years and I have you all to thank for that. **Eames Underclassmen** Have fun for the rest of your time at GDA. Enjoy being in the ECF. I know that while there were times you became sick of me, I could never get enough of you. Your smile always had the power to reverse even the most miserable of days. **MaryLeah:** Your one of the few people I could reveal my true self to. I will never forget your fascination with small candies or the way we could laugh together even while everyone thought we weren't being funny. **Christine:** My gorgeous wifey. What will I do without your constant nagging for the kids? Please, they are in the pool! I am going to miss the warmth of your many hugs and the extraordinary passion that we shared. **Ryan:** You are hereby indebted for a small fortune of gas money. **Demi:** I hope you already know how truly special I think you are. You're beautiful and you work incredibly hard. You're going to do great things. **Jamie:** My beautiful Greek goddess. I am going to miss your fantastic vocals and cheer. **Dan:** Welcome to the east side neighbor. Good luck next year. **Blake:** I promise to keep my marks up! hbu? **Danielle:** Being in France still didn't make you better than me. **Kaela:** I am and will always be hurt by your cruel words. I am going to miss you so much. **PLew:** I really missed you this year, you left a void that could only have been filled by the laughter of Steve Urkel. **Petey and Col:** You two are completely ridiculous. I don't think I'll ever meet anyone quite like you. Good luck next year. **Coby:** Never give up music! I'll miss you next year. **Nate:** I hope to see you down south sometime. Good luck finding a better tennis partner. **Shout outs:** Bryce, Amanda C., Erin, Franklin, Dspill, Alex, Maiki, Liv, Carlota, JGetz, Hannah, Jimmy, Derek, Andrew, Dylan, Carson, Marc, George, Priscilla, Josh, Jenika You guys are awesome, you made GDA such a special place for me. Mom/Dad: Thank you for all your love & support and providing me with all the amazing opportunities I've had in my life. Em/Meg/Liz: Thanks for being such great role models, and more importantly such amazing sisters. Jamie: You've been by my side for the past six years, from computer camp to our Spanish adventures, I wouldn't trade our memories for anything. Your amazing & I'm going to miss you like crazy. Marc: You truly are my best friend. You've always been there for me through everything & I can't begin to imagine the next four years w/o you. Words can't express how much I'll miss you. PS. You can park behind my sequoia tree anytime. Crine: I can't begin to explain our friendship but that's what makes it special. You were my best friend that became my sister, and I know you'll always be in my life. Hannah: Anytime, anywhere. Wake me up if you need me. Always remember - I'm in the getaway car. Brian: I've never fought or laughed with someone as much as I have with you. You're more like a brother to me than a friend and I wouldn't have it any other way. Jenika: I wouldn't have made it through this year w/o you. I'm so proud of you & how far you've come. Iconcur. I agree. I harmonize. Gemelas DL: Since the first day we moved in, I knew we would be best friends. "More to love." We have both changed a lot since freshman year but thankfully our friendship hasn't. Mary Leah: I'm glad you forgave me for bullying you at Bwood, otherwise I would've missed out getting to know one of the greatest people I know. Lisa: GMA. I3knocks. JV Hoops. ACK. I could go on forever about all our laughs. Thanks for helping make my 4 years here so fun. Locamota: I will miss you more than you know. "Thank you for the trifle." Demi Becca Linley Erin Olivia Priscilla: You guys are such amazing friends who have kept me laughing 24/7. Thanks for everything. Kaela: You're the strangest person I know & I love you for it. Ayayay Ray: Thanks for always making me smile. Dan: Sweatshirts on the way. Ryguy < Maddie. Patrick/bf: Libraries won't be as much fun w/o you. Colin: We do give the best hugs. Carson Raph Mike Jason Coby: You guys are so great. GDA wouldn't have been the same without you. Derek: I hate you so much. Jimmy George Blake: You guys are hysterical. Ellie: I never thought after our blowout in ACK we would grow to be best friends. I'm so thankful I got to truly know you this year & I'll miss you so much. Tini: I feel like you're more my proctor than I am yours. Thanks for always listening & I'll miss our humus parties. Molly C: I can't think of anyone else I'd rather have as a little sister. Franklin: Keep working on that backbone. Blonde power. Skylar: I'll miss you. Pup Boulais. Gold (Mom). Prinn. Kings. Bonnie. White: I cannot begin to thank you all for what you've done for me. Whether it was laughs or tears, you were always there for me and I wouldn't have made it without you. Pierce Girls: Love you all

Tim you're awesome but really it has been great hanging out with you and Mario, especially at Fenway, perhaps we should all go to Taiwan sometime so we can learn some more kungfu **Mike** or should I say Mario it has been a pleasure to be your friend. I still have yet to see you get mad and still don't understand how you come up with your Mario methods that you use to do battle with Mr. Leavitt, a lot of my classes would have been much more boring had you not been in them **PJ** from racing cars to counting dots on the ceiling to CS and chem there has always been something to pass the time, without you school would have been much more boring yet I would have had many more snacks, in the long run you saved me calories => I am glad I was able to teach you how to grill that way you'd do all the work and I'd eat, I hope we stay in touch and perhaps you will come work for me someday => **Lindsay** it has been great knowing you, i really hope our friendship lasts long after school. **Carson** it was great having you as a roommate **Ms. Okula** it has been great doing ceramics for 3 of my 4 years here, and no offense to French but I'm glad I took ceramics over it, and I'm grateful you were able to help show me the saggar technique I will miss listening to the radio as I putter about the ceramics studio polishing while chatting to you and Dan **Kevin** your constant energy level still amazes me along with your plethora of SAT words and basketball skills, hope to see you at Cornell sometime **Mr. Werner** civics to econ to tennis to playing horse I've always had a fun time or learned a neat thing when hanging around you, perhaps someday I'll come beat you in horse again => **Seuf** it was great fun to play 3rds soccer for 4 years on your team, if I ever get a motorcycle I'll come find you **Hart** from identifying ants to playing the keyboard you were always entertaining on a boring Thursday **Ariel** it was always great fun crashing Ms. Gold's English class and talking about random thing such as vampires **Dr. Scheintaub** although we never solved the secret of speed of light travel, it was always fun to fiddle around your classroom and play with the lizard **Mr. Nelson** I'll be sure to come back and buy you breakfast in 3 or 4 years and maybe a car => **Mom, Dad**, thanks for sending me to GDA, it was an enjoyable place to be for four years, and I also appreciate the Wednesday night dinners they were always a good time, espec the gallon of ice cream at the Agawam.

*Thank you to everyone who made TGA
such a great experience*

Thanks for all the memories

Mom and Daddy – you are the most important people in my life. I don't think you will ever be able to understand how much I love and appreciate both of you... thank you for all that you have sacrificed for me. **Ryan** –you are my best guy friend. I know that I can tell you anything and you won't judge me, which I love. You have been my friend here the longest, and even though we disagree on some things, you are very special to me, and I know that we will remain close in the future...love you. **Eric** – we bonded over doc hradley's chemistry class and have remained close ever since... Good times in chem, nelly's meh, quig's us history, rokous' english... **PJ** - i am still waiting for my socks. **Tim** – we certainly have had our ups and downs, but I looked forward to seeing you every day. I will always love you... or am I lying? Haha. I still don't believe you had a fire truck. Go Pats. **LMack** – you are my best friend. When you are not around me, I get sad. I am going to miss you sooo much and can not believe that we will not be going to the same school next year. You laugh at all of my jokes, which makes me happy. Promise me we will remain friends... ok? Keep being too legit to quit. Oh, and WHAT WHAT IN THE BUTT **Annie Q** – out of our group, you are my original friend, and that means that you are the best. I love that fact that I can talk about my latest guy drama and you will always listen. You made Italy the best trip ever, roomie. xoxoxo forever. **Emma** – ay carumba. Lo maximo. Lo minimo. En crisis! Estoy mas buena de te. Como extrano! Que fenomenal! Una lastima. Que triste. No me gustan personas que son tools. **Grant** – you are cool beans. Love the glittery eye shadow. Quuuuestion mark? Stay awesome. **Eliza** – the frog walk! Eliza. What? Was someone calling me? Brring brring. O my hand phone is calling me. I admire you because you don't care what people are thinking. **Zoe** – u are one of the prettiest girls I know. Promise u will visit me in nyc. **Nikki / Abby** – you both are wonderful. Mom and Dad: Thank you for all of your love and support that you have given me over my four years at GDA. **Kasey:** These last couple years have been amazing with you. I love you so much and treasure the time that we have spent together. I will love you always. <3 **Gabriella:** Where to start? Haha freshman year was kind of awkward but still fun. Then soph year we became good friends and have been great friends ever since. There have been so many good times...too many to count...You will always have a special place in my heart have fun at Fordam I know the city life will fit you perfectly... love u.**Tim Tim:** Oh Tim...we started out as friends freshman year and have been good friends ever since... So many inside jokes and pranks on Gabriella...make sure in the future if you tell someone that their best friend has an std they aren't the screaming on the phone type. **Mario:** It may be true that your name is really Mike but you will always be Mario to me. I'm still not sure how the name stayed with you for so long but I'm sure one day in the future you will slip and tell people that your name is Mario.**Frenchy:** So many good talks about cars and machines. I know that one day you will have a car collection that anyone would be jealous about. **Max:** Truthfully freshman year I hated how you picked on everyone, then sophomore year we got into that fight and we respected each other ever since. Keep listening to that music loud so you can't hear anyone.**Sully:** We knew each other well coming into our freshman year, but as time went on we grew apart. Have fun in college and keep having fun with soccer. Great time with you this season especially in the time I spent on the field. I will never forget the Brooks game. **D-Hines:** Good times during soccer. Even though its not your main sport you work harder than most. Good pump up talks...better not repeat them...**Nikki:** We had some good talks through the four years...Thanks for listening to much venting...**Seuf:** Thank you for all that you have done for me. I know that I have not been the model student but I know that you were and always will be there for me. Danke **Searles:** The Dr is a possibility in the future **Shout outs:** Markey, Wotty, Patsy, Jason, Reed, Marshall, Veto, Binnie, Bryce, Andrew, Dylan, Spook, Eric, Greg C, Nick B, Hoffman, Moon, C, Metz, Delay, Nelly, Gettings, V, Robertson, anyone and everyone who has made these last four years great.

First of all, many thanks to: **Admission officer** who accepted me: **Visa officer** who allowed me to get a U.S. visa; **my dear parents** who provide me money to attend TGA. Without these dedications, I would not have such a precious high school years in the states. The life here had been so fun with all my friends; the food here had always been not so enjoyable especially when you have "breakfast" dinner; the weather here had always been strange and you can wait for your own favorite – as Mrs. Gold always says. Though it had only been 2 years, there was so much thanks I want to say to teachers who helped me a LOT; there was also too much happiness for me to write down in this limited amount passage. I still remember how I wondered I would lose my way fall of 07, yet now I can walk around in downtown Boston on a random Saturday afternoon. Although the food hadn't been improving much, the swimming pool hadn't become a truth, there's always happiness that I can look back and sadness that I won't forget. **Friends,** there'll be no Rene or Bonnie for your guys to make fun of next year. So, remember: come to visit us if you can, pay us a good meal if you will, call us up if you like, and just just remember that we had been here, and will always be here.....

Mom, Dad, Greg, Erin, Paige, thank you so much for everything. I never would've become the person I am today without you. You mean more to me than I'll ever be able to say. Mrs. Gold, thank you for being so supportive of me, even when I made your job miserable. Matses and Rich, I'll never forget the good times we had in Eames, and in general. You guys were the best friends someone could have. Keep it real next year, and keep in touch. Dan and Demi, it was an awesome Seven years, and it's hard to believe that we are already this far, seems like just yesterday we were sitting in sixth grade homeroom at Shore, thinking college was a hundred years away. Coby let the good times keep rolling. Have an awesome time at UCSC next year, I'll never forget our Cali trip, and I'm looking forward to visiting some nice Cali beaches. Marc, tear it up at Brown, unfortunately we won't be able to sit in math class convincing Becca that Jersey numbers are there to tell you how many times you can wash them before the material deteriorates. Andrew, Alex, Kevin, Maiki, Dan, Pat, Dylan, Josh, I don't think I'll ever find a group of friends like you guys, we came to GDA with the sense of humor of an eleven year old, and I don't think much has changed, and that's fine by me. To Colin, Marc, Jimmy, Blake, Durkin, Trevor, Petey, Dan, Andrew, Breezy, Franklin, Rem, and everyone else on the lax team, it was the most fun four years I could've asked for. Cronin, Harper, French, Ray, Raph, Ivey, Jenika, Hannah, Kaela, Linley, Becca, ML, Maddie, Lisa, Priscilla, Erin, Dom, Webb, Carlota, Ari, Brittany, Julia, Katy, Carson, Derek, Marshall, Christine, I've never seen so many different personalities that made for great friends. I hope I see all of you guys in the future, and I hope all of you have an awesome time next year. Willis, Bdubs, Corey, Jason, Mike D, Mike Mo, Christian, Adinolfo, and all the other Perkanites, keep this place alive next year. Clark, Ferriero, Reed, Orloff, Lamson, Liam, Kwesi, Chris, I'll miss you guys and the good times. Webby, early bird gets the worm. Ahhey, oops. To Ms. Keegan, you have been an awesome influence on me, and I'll truly miss you as well as our unforgettable class. Mr/Mrs. McLain, thank you both for everything. You've helped me out more than you know, and you understand myself and other students more than any other teachers I've met. Mr Pirie, I'll miss having you to teach me all about any wildlife I could imagine, and I wish you the best of luck in the future, you really helped me follow my dreams in zoology. To anyone I forgot I'm really sorry. Much love

Mom and dad: Thank you for sending me here. 4 years in GDA changed me a lot. I think I haven't said this to you in my entire life, but it is true: I love you two, so don't worry. Christine, or Kemi, or ant in Korean: u r the coolest girl I ever met. I may not be good enough to be ur babe like Monk or Ssang, but I hope I can be one of them sometime. Beohner: u must be surprised to see ur name on my senior page, or u will never see it, cuz u won't look at my senior page. I have a shocking news for u. I actually like u! Surprised? Canty: Hey I am looking at ur picture on facebook right now, and u r just so attractive! Show me ur face again in NY. Anna Chai: I do not know what to say. U already know how much I think of u and love u. Let's keep in touch until one of us get buried. Kaela: hey my puppy #0, where I can find u kind of cute and hot puppy again? I'll miss u forever. Maddie: u've been kind to me since I was a freshman, when I knew nth but swear. Haha. Thank u for everything and u r gorgeous, I said it in my freshman year, do u remember? Trever: my neighbor with sexy voice! Anna likes ur voice. Maiki: I am so sorry that I always make fun of ur nationality. Being a japanese sucks, haha jk. I might go to Dokyo to visit you. Did I spell the city wrong? w/e it isn't worthy enough to correct it. Jimmy: I hate u. U r perfect in everything. I think u live up to ur name. Ur Highness, Jimmy King. SB: We haven't talked much, haha. I really wanted to get along with u, but it just didn't work out. Things were getting awkward when we were together. Maybe all we need is more time, right? C u in Korea. Petee: Make love u. And stop hitting me! I no ur stronger than me and when u hit me it hurts a lot! T.T Marc: When I can't find a job after I graduate from college, will u ask ur father to interview me? Haha. Vero&Somin: u girls love food! Will u let me steal one spoonful of ur food one day? I'll love u more! Abi Howard: Hello my date, how was the prom w me? I hope it was a good memory, cuz i'm sure I'll like it. Call me when u come to NY Jason: Like Royce, u r perfect. That's y I hate u and love u as well. Will I ever be like u Kwon family? Doubtful! Stripes: U gotta wear stripes. If not, no one'll recognize u! Jk. Pawan: I no u'll never read this yearbook. U'll say "I'm too lazy, or I don't care, or It's OK." I think I'll visit Thailand this summer, so c u there! Sheridan: Please love me again! Now I feel so lonely w/o u. Angela: u r the kindest person I ever met. Let's keep in touch. Dan: Stop... will u? Kaylee: I'll tutor u chem and math. If not, I'll be so sad!

Tim - Patriots game was miserable and we lost but it was still fun, taking everything out of context, the constant "who's Mike Gardner" jokes / Max - acting blind wasn't funny, dream team, F-5, Sharkzooka, zombies, BBQ day, Billy Mays, the amazing Randy, unholy crusade / French - the bench, reggae music, spaghetti in the bathtub, kaboom / Derek - I can't think of any stories of ours that I would feel comfortable putting on paper, still waiting for a ping pong game / Matses - Gold's class, hot pockets, whale poster, mermaid, still hate Jimmy Buffet / Leavitt - bigfoot walk, the grill scanner is not a gun / PJ - I've never said good morning to you without hearing you complain about something, awesome dictionary strategies / Eric - I think I can now say that you are better than me at math, still can't believe you dropped french / Joe - one of the lankiest kids I've ever met, you're still my pick for Luigi, windmill, defiling Goldie's ear, and so many wise comments / JV Hockey - wagon wheel, locker boxing, trials (Montoni's is still the best). The Boondock Saints, Z's laptop on the bus, the incredible winning percentage, being the official corners starter, Lawrence fights, finally sweeping Belmont Hill / JV Baseball - great job "gang," Dagres leaving the game was one of the funniest things I've ever seen, indecent exposure during one baseball practice / Mr. Pirie - Beirut, the word that Nina wanted to learn, fish bank, the turtle, the belt / Rec Soccer - acting really mature, the songs, Alex not playing football, and despite the references I am not Ironman / Kav - vacation stories / Ray & George - who would have known that Mario would stick / The Family - thank you for the support through all of the late night practices, AP classes, and day to day life, without you I probably wouldn't have been able to make it to graduation

It would be downright impossible to condense the past 4 years into 500 words. No matter how many shout-outs I give (and I'm sure I'd forget someone and never hear the end of it), no matter how many inside jokes I recall, no matter how many long-lost memories I pull up from the depths of freshmen year, it seems like I'll still have something left to say about this place. In fact, I don't think I'll ever get over this school really. Soon there will be new faces, new locations, new fears, new laughs, new sounds, new sights, new everything in my life, but right now all these things seem distant. I'm finding it hard to picture myself outside of Byfield, living a life beyond GDA. I mean, when I call this place my home I don't mean in the figurative sense, I mean it as in this is where I live, this is where I grew up. Without sounding too severe, this place is the center of my universe. Yeah, me and the Governor sure have had our differences in the past (when you stopped serving eggs Benedict on Fridays I felt like filing a complaint), but at the end of the day, they've always got my vote (get it? cause governors are like politicians? Whatever). From accidentally pulling the fire alarm in Peirce when I was 5 to being 18 and now bringing the fire every Guild in the form of the highlighter dance, we have seen it all together. This campus has seen me transform from the chubby little kid who loved Power Rangers and Disney movies into the slightly less chubby teenager who still sleeps every night on his Power Ranger pillowcase and still knows all the words to every Disney song. This school has seen me find my passions, from picking up the guitar as a bored 12 year old to picking up a camera in photo class, a class I was taking just because all my friends were taking it (BTW, thanks guys, and not just for that one). This school watched me go on my first run to the bridge and back all the way to my four seasons on the XC team, stress fractures included. This school sent me to a farm school in Central America, and man, did I have a good time. The most important thing though is the time spent with all my friends and family. Never before have I felt so close to so many people at once. All of you, from my best friends to the kids I never had the chance to talk with to my incredible teachers to my mom, dad, sister and Hope, all of you have helped create an top-notch experience for me. I cannot comprehend life without you guys around. Governor, we've had quite a run. Love Always, Rory p.s., Champ, you're the man for sharing your senior page with me!

COMMENCEMENT

the seniors last
 chance to help the
 community as the
 class of 2009

For the fifth consecutive year, the Capstone Program initiated by Headmaster Marty Doggett, will "promote the notion of service learning." The class was divided into three groups, each one working at one of the venues each day and then rotating to others on subsequent days. At the Ford School in Lynn, the student groups conducted science experiments and workshops in music, visual art and dance. At Ipswich Audubon, students painted houses and took canoe trips. And at the Hogan Regional Center, operated by the state Department of Mental Retardation, they built a sensory garden, patio and an extension to a deck for the residents.

Morse Flag

awarded to the senior whose record in all respects meets the highest approval of the faculty

Her journey through the Academy has been a tour d'force of achievement. She has been a scholar of unusual depth and discernment; a show-stopping actress, an accomplished athlete, a melodious singer, an effective community organizer and a respected role model. Since she arrived in Byfield in 2005, she has seemingly touched every corner of our school community. Her kindness, vitality and sincere commitment to learning have been apparent to all. She is the person you want to be captain of your team. She is the person who can have a serious or a wildly funny conversation with a prospective student on tour, a freshman, a senior classmate, a new teacher, an old teacher, a new parent or an alumni trustee all in the same morning. She has a smile that will light up your pathway at midnight and she has a laugh and sense of mischief that is wicked and funny and wicked funny. She has been an inspiring dormitory proctor whose guidance, sound judgment and friendship have been true gifts to her girls. She has brought inspired, charismatic leadership to the Special Olympics program and helped to make the FLIP experience memorable for her freshman charges. Both PRIDE and NEXO have been richer organizations because of her involvement. In the classroom she has been a scholar's scholar. She is an original thinker who is self motivated and innately curious. She has sought to challenge herself by taking the most ambitious course of studies possible and then performing at the highest levels. She enjoys making connections across disciplines and probing the meanings behind explanations. She has a need to know what she doesn't know. Put her on stage and you are guaranteed to be thoroughly entertained. It is hard to think of anyone else playing Rizzo in Grease or Mama in Chicago with such flair, sass and attitude. Put a softball hat in her hands and she will put on a hitting clinic. She has been a perennial all league performer, a two time captain, an intense competitor and a bona fide student of the game. She is a pretty remarkable young woman. Just ask her teachers one by one. Just ask her peers one by one. Each one will have at least one story; a story that can only be told with a smile, a story of an encounter and a connection with a person of genuine and generous spirit and impressive talents. She will be venturing off to a little college in northwestern Massachusetts where Perry Nelson and Mark Gerry gained their fame. No doubt her star will continue to shine brightly.

Amanda Rose Correnti

Peter W. Bragdon Headmaster's Cup

awarded to the senior who, in the Headmaster's judgment, best serves the mission of the school

When he first arrived on campus he was decidedly homesick and probably a bit apprehensive about his new circumstances. He was far from home and found the routines, patterns and culture of boarding school to be unfamiliar and often confusing. The transition to learning to live with a roommate, adjusting to the elevated academic expectations and fitting into a new social scene did not always proceed smoothly. There were early disappointments and nagging questions whether this school represented the right fit. He ultimately found his bearings, his voice and his path. He found the courage to be himself and this in turn revealed to the rest of us a person of rare qualities and strengths. He is a leader but unlike some who look for validation or for approbation of nourishing applause, he derives satisfaction from working with others to achieve a goal. He instinctively knows what needs to be done and is the first to roll up his sleeves and get down to work. He has become a connector in our community who builds bridges of understanding between people. His kind and thoughtful treatment of others is a model for us all. He has been intimately involved in the fabric of school life. He has been catalytic force behind the PRIDE group, a stalwart special Olympics volunteer, a dedicated phonathon solicitor, an empathetic peer advisor, and a reliable Mansion House Proctor. For two years he has spearheaded a highly successful campaign to raise humanitarian funding for the Wunlang School in Sudan. He understands what it means to be a teammate, he understands the value of sportsmanship and he believes in playing the game the right way. Coaches and fellow players confide in him and trust his insights. In the classroom, his energy, honesty and curiosity are apparent. He is not afraid to test his ideas in conversation. His teachers appreciate his determination and drive to become a life long learner. His enthusiasm is visible and boundless; his sincerity is palpable. He sees the world with clear, compassionate and respectful eyes. By being who he is, our honoree offers advice and instruction by example. Within him we see the good resonate with intensity, unimpeded by ego and selfishness. He now walks his path confidently, and along the way, has made South Byfield a little better by his presence.

Raphael Richard Durand

Academy Prize

awarded to the senior whose unselfishness and sportsmanship best exemplifies the spirit of the school

To be deemed a leader, certain attributes must be present. Self-confidence, coupled with compassion and tempered by humility drawn from experience, are all essential ingredients. The legitimacy to lead also stems from competence, the consistent employment of fair judgment, honesty and integrity. Simply put the foundation for leadership is character. Individuals who are genuine and of sound character, as demonstrated by their actions rather than their words, engender trust and belief in others. This year's Academy Prize winner fits this profile and then some. He is quiet and unassuming but his talent and accomplishments in the academic, athletic and artistic arena have been considerable. His impact on the larger community has been substantial. Academically, he is highly disciplined student who brings creativity, originality and the drive to succeed into the classroom. He has a nimble, open mind and clearly thinks for himself. He enjoys the rough and tumble of intellectual debate. He has been a stalwart of the varsity lacrosse team since his freshman year. He has been the backbone of the defense of three ISL championship teams, a team captain and a perennial all star nominee. He has also been a four-year starter on the varsity football team, arguably the squad's most consistent lineman. His teammates elected him captain and the League coaches recognized him as an all league Honorable Mention performer. It would be hard to imagine a better role model for the younger students in his dormitory. His sense of responsibility is highly elevated as is his common sense and instincts when to intervene into complicated situations. His thoughtfulness, maturity, sense of responsibility, playfulness and humility combine to make for a highly respected and effective student leader. The rest of his resume is filled with many other contributions and achievements. He has been an exceptional ambassador for the Academy as one of the Admissions Office's Head Tour Guides. He has been a valued freshman F.L.I.P. leader. His comedic cameo in the musical Grease was one of the highpoints of the winter musical. He has been a loyal and reliable volunteer for the Special Olympics. He has a passion for excellence and wages an ongoing competition with himself to become better. More importantly, he has worked to make our school better and in the process has inspired those around him to aspire to be their best selves.

James Michael King

Thorndike Hilton Cup

awarded to the ranking scholar of the graduating class

There are so many descriptive words that can be hung on the mantle of this year's Thorndike Hilton winner- insatiable, curious, refreshing, patient, humble, forthright, empathetic, brilliant...but she is best captured by just one word: genuine. This young woman is a scholar, a genuine scholar for whom the very act of learning is an act of love. This young woman is a friend, a genuine friend who garners more pleasure from the accomplishments of others than from her own success. This young woman is a "governor, tried and true," a genuine soon-to-be alumna who has loved this school unabashedly since childhood. Her advisor captures her character with these words: "Don't measure her by AP classes or awards or GPA... for it is what guides this young woman that sets her apart. Having acquired a wider, wiser view than most students her age - or most adults at any age, for that matter - she follows and fixes her direction by an unmarked northern star that requires remarkable patience to find. The set of principles she lives by almost seem quaint by today's standards: unbending honesty, relentless hard work, unconditional devotion to friends and family." She is the real thing. From Newburyport, Massachusetts, the highest ranking scholar of the class of 2009 is

Ariel Isabella Shapiro

Peter Marshall French Trophy

This individual participates in athletics because it provides a forum for self challenge; it is also fair to say that the spirit of competition courses through her veins. She relishes the slide tackle in the mud to take the ball away from an opponent, the heave of a no-look feed in lacrosse, the satisfying ache in every muscle that accompanies a long hard practice and the bond and camaraderie that develops with teammates throughout the peaks and valleys of a season. Her passion is electric and highly visible. She plays with the same intensity, determination and drive whether she is involved in a pre-season scrimmage or competing for a New England Championship. Through hard work and commitment she has trained her body to achieve peak performances and has developed the mental toughness to excel when the game is on the line. She is a natural leader respected by her peers because of the poise, grace, modesty and the legitimate athleticism that she exhibits. She is a fine student whose work ethic is superb and her level of engagement significant. She will be an excellent scholar athlete next year at Colby College.

Lisa Whitney Hoopes

George Tsakirgis

Goodwin Athletic Prize

A three season letter winner and two sport captain as a senior, he earned 11 varsity letters over his four year career; not a bad record. His hallmark is his dogged determination, dedication and competitiveness. His coaches will tell you that he practiced as hard as he competed. His tireless effort coupled with his sportsmanship earned him the respect of teammates and opponents alike. On the gridiron he was a standout offensive and defensive player and earned both team MVP and All- ISL League Honors. He earned an opportunity to play Division 1 football at the University of Rhode Island next fall. On the wrestling mat, he took on all comers in his weight class finishing 3rd in the Graves-Kelsey ISL League Tournament, garnering All- League Honorable Mention and winning the team's Herb Evans Coaches Award. This spring, he showed his versatility competing in both track and field events. A newcomer to the javelin throw, he nevertheless, placed in that event at the ISL League Championship. He won valuable points for his team as a member of the 4x100 relay team. Throughout his time in a Governor's uniform, he made himself a better player through his commitment to training and mental preparation. He relied equally on his brawn and his brain to perform at the highest levels. He is an intense competitor between the lines but this drive for success never eclipses his ingrained sense of sportsmanship and abiding respect for the game. He played hard but fair and always represented The Academy with distinction.

Anne Marie Murphy Athletic Prize

This year's award goes to a young woman who in her two years here has brought honor to The Governor's Academy in two sports. An Academy star in both soccer and track, this student's record includes a remarkable string of achievements. In one season of soccer this young woman garnered Team MVP, All-scholastic MVP by The Boston Globe, All-ISL League, All-State, All-Region, and finally, and most impressively, All-American. This last award reflects a singular feat as only one other ISL girl in the last twelve years has earned this honor. Even with this laudatory series of accolades and a spot on the Syracuse soccer team assured, this athlete dedicated herself to the pursuit of indoor and outdoor track her two final seasons at the Academy. In fact, the athletic department has this young woman to thank leading the return and resurgence of the indoor track program to the Academy after a twenty-year hiatus. Recently, she placed second in the high jump at ISL's, and while finishing third in the long and high jumps at New England's, she ran a leg of the 4x100 to fill in for an injured teammate. Always ready to step in where needed, always ready to surpass her previous achievements, this athlete led by example both on the soccer pitch and on the track with her cheerful readiness and competitive spirit.

Erin Christine Quinlan

Amanda Noel Ludeking

Thespian Award

Acting is a difficult art, but the best actors and actresses make it invisible the better to merge with their characters. When she is on stage there is nothing subtle about her performances. This young woman dares to hug life in all its forms so closely, in fact, that she practically chokes it. Her exuberance makes you dizzy. She can melt your heart and jangle your nerves. She is "a lover, a madwoman and poet" with a reservoir of talent that fills an auditorium. She has been working in front of the footlights since she was a child at Theatre-in-the-Open in Newburyport and she has learned the lessons of her craft well.

Johnson Science Award

This year's recipient of the Johnson prize is an interesting amalgamation of the mellow and driven. He is quiet and unassuming in class but is superbly organized in habits and temperament and turns in near-perfect work. His teachers will grade his tests first to double check their answer sheets. His modesty often makes him somewhat inconspicuous— we may not notice his passion, but it burns intensely in his soul. We do witness and admire his intellectual gifts. No one pressured or cajoled this young man to sign up for four AP classes in his senior year. He chose his courses because he was interested in the subjects and welcomed the challenge. When you see him riding his long board down the Middle Road, you might think this young man has not a worry in the world. In fact, he is probably mulling a complex physics problem over in his head. Fortunately for us all he is quite adept at multi-tasking.

Patrick Finn Diamond

Edward J. Rybicki Prize

Like all good publications, The Governor, relies on the commitment, talent, and creativity of its editors. The articles that appeared in this year's paper were thoroughly researched and well written; just what journalism is supposed to be. As we watch world class newspapers such as The Boston Globe, the Los Angeles Times and the Washington Post lose print readership, we are pleased to witness a different trend in South Byfield; the growth and popularity of our own student journalistic endeavors. Each season this year, the editors added their own imprimatur to the newspaper. One editor, however, stands out for her efficient organization, her prolific writing and her insightful editing skills. She came to the paper with fresh perspectives, new ideas and was able to encourage others to contribute. She functioned the way good editors should, offering suggestions that made each story stronger and more readable. She set a high standard for next year's editors to emulate.

Gabriella Grace Marie Riley

Barriskill Prize

The recipient of this year's Barriskill Prize is an outstanding instrumentalist and natural performer who is respected among his peers for his music talent, his far ranging repertoire of songs and for his strength of character. His instincts are impeccable. He knows when to step into the limelight and when to sit back and let other musicians shine. When it is his turn in the spotlight, his solos are stylistic and creative, but never showy or egotistical. But play he can! He makes the sounds of BB King, Stevie Ray Vaughn, Eric Clapton along with his own compositions vibrantly come to life. On stage, he serves the music, his ensemble, and the audience. He possesses the rare ability to connect with other players on the stage and truly enjoy making music in the moment with them. He has a similar connection to his audiences A positive role model for his peers and younger students, he is at all times kind, generous, and polite.

Marc Anthony DiCroce

Mercer Art Prize

It sets a demanding standard: Exceptional creativity and originality by a senior who has earned honor grades in all available Studio Art and Art History courses along with intentional efforts to achieve artistic awareness and proficiency. Paul Gardner wrote that "A painting is never finished - it simply stops in interesting places." This year's recipient of the Mercer Art Prize has had a very distinguished artistic career at the Academy. Her distinctive creations have graced our galleries and studios From the very beginning, her talent, creativity and dedication to her craft impressed the members of the art department and in the art department were very impressed with this artist's talent, creativity and dedication to art. As her momentum continued to build, she began to experiment in different mediums and techniques. During her junior year she petitioned to enter into the AP Studio course, which has been traditionally a senior offering. The Art Department was so impressed with her body of work that they enthusiastically made an exception. Her renderings displayed an innate sense of color and form supported by a boundless palette. During her senior year, she has traveled in new directions as she let color move playfully across her canvas. She has explored concepts of balance and design by introducing printing techniques into her compositions. This artist has received countless accolades for her art work, including recognition for her entries into the Boston Globe Art Awards for the past two years, and being the recipient of the 2008 Junior Art Prize. We have stopped at this interesting place in her artistic journey, but I am certain that she will continue to progress along this creative path.

Soo Yeon Chai

McCullough Science Prize

Wrote Roman philosopher, Seneca the Younger, "It is not because things are difficult that we do not dare; it is because we do not dare that they are difficult." Devotion. Curiosity. Passion. Courage. Yes, Mr. McCullough "got it." He understood that life can be a complicated, unpredictable but always satisfying voyage. In this same spirit; this year's honoree also "gets it". This year, as a senior, she opted to take on the formidable challenge of both Anatomy and Physiology and Advanced Placement Biology even though previous experiences in the sciences had produced only modest results. Not surprisingly, AP Biology initially presented a significant challenge; the difficulties mounted, but so too, did this student's resolve. She demonstrated a steadfast purpose, an uncompromising sense of commitment and a will to succeed. Along the way she even discovered a burgeoning passion for the discipline. While her ultimate evaluative performance was stellar the real triumph was not about the grade but more about her journey of self discovery where she experienced that "aha moment" and "got it". She has been inspired to pursue a career in the field of medicine where it will be comforting to know she will be ministering to the needs of others.

Brittany Taylor Caruso

RECOGNITION — CEREMONY

Cummings Prize

One of the unique aspects of independent schools is the opportunities students have to explore educational experiences outside of the classroom; this sort of intellectual risk-taking is encouraged. Our Cuming Award recipient has certainly been this type of adventurer. While academics remained a high priority, it was often the more non-traditional options that energized and engaged him. He is an award-winning short-filmmaker in the tradition of John Sayles who has created well-crafted, creative and humorous tales with his camera; he made a spirited run as a Libertarian presidential candidate in the school's mock election; he was a choreographer and dancer ala Chris Brown in the highlighter dance – for which he won Rave reviews – bad pun intended; he is an aspiring musician who collaborated on a melodie CD this spring. In addition, he played on a championship varsity squad, a JV team and a recreational team this year; regardless of the proficiency level, he enjoys the spirit of competition, the camaraderie and shared purpose of team play. When he undertakes a project or cause, he jumps into the mix with both feet; purposefully and sincerely in order to make the endeavor work....He usually succeeds and the community benefits.

Andrew McLain

Elizabeth Wilkinson Cieri

Gaffney Prize

Ever since her freshman year she has been a model of grace, sensitivity and maturity. She is firmly grounded in high morals and sound values. There is elegance about her that is positive and winning and not the least bit glitzy or pretentious. Her smile is infectious and exudes genuine warmth and sincerity. As a dorm proctor she has been an unselfish care taker for the girls in her dorm. She is patient, accessible, empathetic and specializes in the little acts of kindness and concern that make all the difference in residential living. She also does what a leader is expected to do...she models good behavior. She is a serious student who cares about how she performs. She is so dedicated to her studies that one teacher described her as having a "workhorse mentality". She accepts constructive criticism well and participates enthusiastically to class discussions. This same enthusiasm can be seen in the athletic arena. She became a mainstay of both the JV lacrosse and ice hockey teams. She improved her skills and brought a positive attitude to both practice and games. A strong sense of community permeates The Governor's Academy. This doesn't happen by magic. It occurs because of people. This year's Gaffney Prize winner is a true "community" person. Her presence, her outlook on life and her many kind contributions to communal living bring out the best in others and represent the very best of this School.

Sarah Ellen Avalon Award

Strength of character is revealed during times of adversity. The ability to maintain one's focus, composure and perspective in the face of personal challenge is revelatory. This year's honoree has dealt courageously and stoically with a significant family issue. Despite this significant distraction, there was no decline in her strong work ethic and commitment to learning. She meticulously completed all of her academic tasks, willingly participated in classroom discussions, and took full advantage of the educational opportunities outside of the classroom. She also found time to take a studio art course and quickly impressed her teacher with her creative sense. Her instructor observed that she has an eye for framing the world around her as well as the patience and joy to be quite good at it. Athletically, she was a talented and important contributor to three successful varsity programs including the two-time New England champion ice hockey squad and the 2008 ISL softball league champions. The qualities of poise, grace under pressure, personal responsibility, kindness, empathy and ability that we have come to associate with her will serve her well as begins her nursing studies.

Rebecca Elizabeth Lindmark

Madalyn Lee Durgin

Alumni Council Award

"Nothing great was ever achieved without enthusiasm" and our recipient approaches each day, every challenge and every opportunity with unbridled energy and optimism. As a result, she has consistently accomplished great things. There are few students at the Academy with a higher profile than our honoree; She has been the face of admissions, served on the Discipline Committee, co-directed the Special Olympics, performed as a Proctor, functioned as a Peer Advisor, coordinated blood drives and acted as a FLIP leader. She has handled these obligations with spirit, vitality and efficiency. If something needs to be done, she instinctively springs into action. She is the one who will help organize an event, spend time with a homesick student, come to the defense of someone being teased or console a teammate who has been injured. She is refreshingly genuine and firmly grounded. Her warmth, generosity of spirit and loyalty have inspired us all to be more positive, less cynical and more considerate of others. She has a quick smile and an even quicker wit. She has even been known to stretch the truth a bit, fib as it were, never maliciously but usually for comic effect. Her teachers wax poetic about her contributions to the intellectual tone of their classrooms. She is genuinely interested in ideas and her contributions to discussions always advance the dialogue. One teacher called her "a welcome voice of reason and clarity in class". The accolades from other instructors are uniform, unqualified and sincere. From the day she enrolled at The Governor's Academy, we all knew she was the "real deal". She has never disappointed on this promise. The Class of 2007 named her the Whittemore Prize Winner, the faculty elected her to the Cum Laude Society and now the Alumni Association honors her with their top award.

Wilkie Service Award

This young man is known for his "can-do" attitude. Whether working with young children at the Charter School, helping the recycling team gather and sort bottles or spinning yet another pot and applying yet another glaze, he was dedicated and cooperative. Did you need someone to finish the last few details of the Soup's On sale, or to account for the considerable money raised? He was the go-to person. Did you need someone to give personalized attention to a young student? He was there to give it. Did you need someone to willingly go back in the open go-cart in the middle of winter to collect yet another round of recyclables? He would do it cheerfully. He represented the Governor's Academy extraordinarily well off-campus; he helped raise the recycling program to a higher plane and make it part of the ethos of the school; his pots were large and wonderfully glazed and were among the first to be sold at the Soup's-On sales.

Eric Michael Dunstan

Awarded to members of the Academy's Senior Class whose perseverance, courage, initiative, sense of responsibility, loyalty, and concern for others have contributed to the strength of the Academy

SPECIAL PRIZES

He is an activist in the best sense of the word. He always seems immersed in a project or cause to which he devotes his full energy and commitment. He has pedaled the length of the Bay State as one of the youngest participants in the Pan Mass Challenge raising thousands of dollars for cancer research. He has been an invaluable resource for the Academy's technology staff as a Tech Ranger. His excellent programming skills and his ability to effectively troubleshoot hardware and software problems in the dorms and offices have won him gratitude and a high place in heaven in the minds of those of us who struggle with technology. The student newspaper the Governor prospered under his editorship. He pushed himself and his staff to raise journalistic standards and tackle issues of substance. He has been a thoroughly engaged proctor who has worked tirelessly and intentionally to make the transition to boarding life a smooth one for new students. In the classroom, he has a probing intellect, a restless curiosity and first rate powers of analysis. This spring he demonstrated acute prognostication powers in a stock market simulation in his economics course that put the Warren Buffet's of the world to shame. I suspect that we will be hearing again from this talented young man. This special Prize is awarded to:

William Kavanagh

She has pluck and spirit, often the traits of a middle child. Knowing her parents, perhaps you can better understand the source of her tenacity, determination, and sheer willfulness. However, she has decidedly marked her own course and along its way has touched many with her friendliness, sense of responsibility, good humor, and positive drive. It would be easy to package her strictly as an athlete. She has competed for twelve varsity seasons, and has been an integral part of championship hockey teams and has won personal recognition as a nationally ranked competitor in track. No one can surpass her dedication and success as a javelin thrower. Nevertheless, she always understands the need to be a team player above the desire to excel individually. One only has to observe her gritty countenance in the heat of competition to have an insight into her strength – both physical and mental. But she is much more than this. She is also a conscientious student who has earned the respect of her teachers because of her determined work ethic. She is home-grown and has adeptly balanced the line between being a faculty child and a Governor's student. She is a connoisseur of jokes, relishing the give and take of clever banter. Most significantly, she has been a role model for younger students; she leads in the most important way- by example. I'm pleased to award this special prize to:

Abbey Lee Karin

The fortunes of a lacrosse team often ebb and flow with the performance of the face-off man. This is the player who contorts himself in an awkward crouched stance and seeks to control the ball for his team. Good face-off men have developed a series perfected moves at their disposal, but the key to their success comes down to a combination of hard work, determination, tenacity and a single-mindedness of purpose. This young man has been so reliable and adept at controlling the tempo of lacrosse games for the past two years that it is almost taken for granted. This suits him fine; he is modest, self effacing and a true sportsman. He is more focused on the team's fortunes than on individual accomplishments. His exploits on the lacrosse field are a metaphor for how he approaches his academic responsibilities. He works diligently to hone the tools of scholarship; he is eager to contribute to intellectual discussions and is curious about what he doesn't know. He respects learning for its own sake. He is a presence on campus, appreciated by his peers, admired by younger students and respected by the faculty. It is my pleasure this evening to honor with a special prize to:

Brian Conlon Durkin

In the two short years she has lived in our hemisphere, this young woman has made a name for herself in the academic realm and forged an indelible legacy in the world of music and the arts. As a devoted techie and P.A.C. proctor last year, she dutifully recorded each Wednesday's chapel speech for posterity. This year, she has moved from behind the scenes to the stage itself, providing beautiful music for the community on many a Wednesday morning, and culminating with a masterful movement from a Mozart concerto in the spring concert. At the same time, she has maintained high honors status each quarter this year, while working within her second language and culture. Our loss will be the University of Rochester's gain next year. We are delighted to award this Special Prize – with appreciation – to:

Xia Yu (Bonnie)

He carries himself with dignity, style and grace as he walks across the campus. But put him on a track and he explodes with raw kinetic energy. He glides over hurdles in effortless fashion and jumps as if he has springs for legs. He has consistently been one of the top performers in the ISL and in all of New England for that matter. His impact in other venues has been equally substantive. His commitment to his school has been tangible and genuine. He was a member of the Discipline Committee, a body that helps to define community standards. He brought maturity, objectivity and compassion to these deliberations. He was an active member of the Anti Defamation League and PRIDE where he has worked to promote a climate of inclusion and broadmindedness. As a proctor, he has been a force for good in the dormitory. He is not afraid to confront inappropriate behavior and he encourages his peers to be their best selves. He remains untarnished by the cynicism and negativity that are part of youth culture and the larger society. His enthusiasm for life is visible and boundless and his sincerity is palpable. He sees the world with clear, compassionate and respectful eyes. I am delighted to award this special prize to:

Editor's Closing

So this is our story- class of 2009. As you look through the pages of our Milestone, I hope that you experience what has been captured by so many- the permanent reminder of the laughter, fun and excitement of some of the cherished moments experienced at The Governor's Academy.

We share a school, but as individuals we grew together in a class and in our friendships. This yearbook has been a labor of love for me and as I crop the last image, input the last heading, and perfect the resolution of the last picture, I feel a great sense of pride for having been a part of such an incredible group of individuals.

Thanks to PJ Lin, my co-editor, for his patience and support through this daunting process. Lastly, a special thank you to Mr. Oxtan, whose guidance and support helped me navigate through the time-consuming process of designing and executing in what I hope will be a yearbook to remember.

Demi Leone
